

# BxAudit

Biometix provides a full suite of independent  
audit and assurance services

---

BIOMETRIC DATA SOLUTIONS

**“Governance over biometric systems is critical to ensuring compliance rates and maintaining performance levels. BxAudit simplifies this process”**

## Tailored audit to meet your organisational requirements

Biometix can provide a full suite of independent audit and assurance services. We can review your current (or planned) biometric solution against any range of metrics, including: System performance, outlier detection, security, fraud, alignment with departmental IT policies, asset management, preparedness (intrusion, malfunction, disaster recovery) etc. All our audits ensure standards compliance.

### SYSTEM AUDIT AND RISK MANAGEMENT

Full audit of system performance to identify areas for optimisation and risk mitigation

### LIVENESS DETECTION

Identification of potential biometric fraud by clustering analysis of quality and matching logs

### SYSTEM VULNERABILITY AND PENETRATION

Identification of anomalous data transactions and outlier conditions

### PRIVACY RISKS

Validation of data security and access control

### SERVICE LEVEL AGREEMENT AUDIT

Full performance audit of service level agreements
